

Amy O'Connor

Big Data Evangelist, Cloudera

[Website](#) | [@imamy](#)

Amy O'Connor is a big data evangelist and telecommunications specialist at Cloudera, the leading big data vendor. She advises customers globally as they introduce big data solutions and adopt enterprise-wide big data delivery capabilities. Amy was recently named one of *Information Management's* 10 big data experts to know. Prior to joining Cloudera, Amy built and ran Nokia's big data team, developing and managing Nokia's data assets and leading a team of data scientists to drive insights. Previously, Amy was vice president of services marketing and also led strategy for the software and storage business units of Sun Microsystems.
